# Divyanshu Talwar

divyanshu15028@iiitd.ac.in | divyanshu-talwar.github.io

#### **EDUCATION**

IIIT-Delhi New Delhi, India Bachelor of Technology in Computer Science and Engineering CGPA: 9.84/10 May 2019 • Ranked among the top 1% of the institute. • Dean's List for academic excellence awarded in all years. Amity International School, Mayur Vihar New Delhi, India All-India Senior School Certificate Examination (CBSE), Class XII PCT: 95.6% Apr 2015

## EXPERIENCE

#### **Goldman Sachs**

Technology Risk Analyst May 2019 - Present

CGPA: 10/10

Apr 2013

Dec 2017 - Nov 2018

2019

2019

2018

Engineering solutions to effectively manage the firm's technological risk.

All-India Secondary School Examination (CBSE), Class X

#### IIIT-Delhi

Teaching Assistant, Probability and Statistics Jan 2019 - May 2019

Held weekly tutorials and office hours, helped prepare and grade assignments and exams.

Undergraduate Research Assistant Jan 2018 - May 2019

Advisor: Dr. Angshul Majumdar

Mathematically modeled collaborative filtering and bio-informatics problems.

Undergraduate Research Assistant Advisor: Dr. Saket Anand

Worked on learning disentangled representations along with exploring its applications

in zero/few-shot learning, transfer learning, and targetted data-augmentation.

## **PUBLICATIONS**

AutoImpute: Autoencoder based imputation of single-cell RNA-seq data Nature - Scientific Reports Divyanshu Talwar, Aanchal Mongia, Debarka Sengupta, and Angshul Majumdar. Vol. 8, 16329 (2018)

#### RELEVANT COURSEWORK

Valuation & Portfolio Management	Machine Learning	Linear Algebra	Macroeconomics
Foundations of Finance	Deep Learning	Probability & Statistics	Theory of Computation
Analysis & Design of Algorithms	Robotics	Multivariate Calculus	Numerical Analysis

#### SKILLS

Languages: Python, C, C++, Java, Bash, C#, MATLAB, JavaScript.

Frameworks: PyTorch, Tensorflow, CUDA, OpenGL, Kafka, Node.js, Unity, Git, LaTeX.

Databases: SQL, NoSQL.

# POSITIONS OF RESPONSIBILITY

Representative	Represented CSE 2015 batch as a part of Student Senate, IIIT-Delhi.	Apr 2018 - May 2019
Coach	Guided Team Victorious Secret through their RGSoC journey.	Jul 2017 - Sept 2017
Instructor	Organized competitive programming workshops for high school students.	Jul 2016
Volunteer	Conducted mathematics and science tutorials for economically challenged	May 2016 - Jun 2016
	junior-high school students at Summer School, IIIT-Delhi.	•

#### **PROJECTS**

#### Training Neural Networks without Backpropagation

Trained neural networks by solving an optimization problem where the different layers are separated by variable splitting technique and the ensuing sub-problems are solved using ADMM.

ShakaLaka Boom Boom: 2D Cartoon Sketches to 3D Models

Developed a Unity application to convert 2D sketches to 3D models which could be maneuvered around using hand gestures (to a position and orientation of choice) in a 3D scene.

Disentangling Latent Factors of Variation for Visual Data

Bachelor's Thesis | Advisor: Dr. Saket Anand

Researched on learning marginally independent disentangled latent representations for images (mainly facial) and its applications in zero/few-shot learning, transfer learning, and targetted data-augmentation.

CUDA implementation of the parallel-DFS algorithm (proposed in IA3 2017 paper) which is up to 1.75× faster than the sequential algorithm.  CitHub Recommender System  Implemented a recommender system for CitHub where users are recommended new repositories to work on, congruous to their area of interest.  Automated Game-Playing  Implemented and compared a set of reinforcement learning algorithms along with exploring the efficacy of hacks, examining their performance on Atari games.  Demystifying Neural Networks  Trained an unboxed neural network (with self-implemented forward-pass and backpropagation) and compared it with the scikit-learn's MLP classifier, examining their performance on MNIST dataset.
GitHub Recommender System  Implemented a recommender system for GitHub where users are recommended new repositories to work on, congruous to their area of interest.  Automated Game-Playing  Implemented and compared a set of reinforcement learning algorithms along with exploring the efficacy of hacks, examining their performance on Atari games.  Demystifying Neural Networks  Trained an unboxed neural network (with self-implemented forward-pass and backpropagation) and compared it with the scikit-learn's MLP classifier, examining their performance on MNIST dataset.

compared it with the scikit-learn's MLP classifier, examining their performance on MNIST dataset.
·
N
Numerical Methods 2016
Implemented algorithms for root finding, interpolation, differentiation and integration, and for solving
linear systems of equations as well as ordinary and partial differential equations numerically.
Mapbots 2016
Mapped rooms using an Arduino powered bot surmounted by a ring of ultrasonic sensors.

# **ACHIEVEMENTS**

Dean's List for academic excellence.	Sept 2016, 2017, 2018
First runner up at Code-Off: All-India Hackathon with over 350 participating teams.	Oct 2017
Teaching excellence award at Summer School, IIIT-Delhi.	Jun 2016
Country topper at the Third Amity International Olympiad for Physics.	May 2014
